

Field instructor & Clinical Educator Qualification Policy:

Student Teaching

- All field instructors must be certified in the discipline(s) they supervise, or must have had 5 years of administrative supervising and/or 5 years of teaching the discipline in a P-12 setting within the past 10 years. (Effective Spring 2019)
 - All program coordinators must provide evidence that any field instructor whose certificate was issued more than seven years ago knows the discipline's current content and instructional strategies. Program coordinators must provide a description of what they have done to ensure that each field instructor is knowledgeable of current content and instructional strategies. (Effective Fall 2014)
 - University field instructors and clinical educators will participate in mentor training. (Effective January 1, 2015)
-
