Old Business

1. Update: UDTPA (Krissy)
 - Krissy reported on the UDTPA project. An email was sent to participating program leads to update their program's timeline and to upload student's documents in the shared folder for each task. After we collect all the data, in particular the videos, we're going to have a master scorer score them. We can then compare the scores from field instructors to determine consensus on scoring. There are scoring spreadsheets for the field instructors to use to score their students in the shared folder. If you have any exemplar videos that we can highlight in our training modules, please let us know.

New Business

1. Curriculum proposals (Hannah Kim)
 - Social Studies
 - Hannah reviewed the curriculum proposal to list the foreign language and science lab courses and any cross listed courses allowed for economic electives and related social studies coursework. There is no change, just administrative clarification.
 - **Proposal approved.**
2. Student teaching accommodations (All)
 - Krissy reviewed that the council has started to discuss what are the accommodations that students currently receive here at UD that need to be put in place when they move the student teaching field experience. Krissy proposed forming a small committee to discuss how we can move forward. It was suggested that in addition to our legal mandate under ADA for accommodation to consider neurodiversity affirming practices and how we are modeling those from

a higher education standpoint. It was suggested to include someone from Disability Support Services. Sarah and Duane volunteered to be on the committee.

- **ACTION: Anyone who would like to volunteer for the committee, please reach out to Krissy.**
